Description

Description

After saving the updated profile with the new username and reopening the edit form, the old, overwritten data is visible

Reproduction steps

1. Run the application Mr. Buggy
2. Click profile
3. Click edit
4. Change data in field 'Username' and click save
5. Click edit again

Acctual result

After save updated profile with new username and opening the edit form again there is visible old, overwritten data

Expected result

After save updated profile with new username and opening the edit form again there should be visible new updated username
